Washington, DC 20554

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am a low income person working as a school teacher, concerned that this proposal could make my current service unaffordable. I make very few calls.

With the flat fee proposal, people who make few long distance calls would pay the same as people or businesses that make many calls. This just isn't fair.

I use my wireless phone for cost. I got a wireless phone 120 minutes of service for less than \$30.00. I've only used less than 60 minutes of service in 3 months.

I don't want to lose these benefits so that big businesses can pay less. I urge you to reject the proposal to a flat-fee collection system.

I don't want to pay more for my telephone service!

Thanks, John Wojdak

Sincerely,

John Wojdak
